PlacidOil Co; Ray leads; Hunt?

In the leads I got from Ray was a partly-legible phone number that seemed like it could have been a New Orleans number. Checking out one of the possibilities led to a listing for the Placid Oil Co. in the Saratoga Building.

Yesterday I saw H.L.Hunt. While I was in his building, 1401 Elm St., I checked the board. It lists the Placid Oil Co. in Room 2500.

Mary says it is one of Hunt's.

This may not mean anything, for we do not know the connection of the New Orleans number or how it got onto the notes Ray gave me (he said from Russell Thompson who got from the NAACP), or even if this is the correct number. But it also cannot be ignored.
